Pups doing good ...

The Pups and the People all have fun, helping the dog community and caring for each other!

Every troop has their own personality. Our Beverly Hills troop is always looking for a chance to get into the spotlight. Troop Leaders Wolfie and Bear and their mom Lola make lots of videos for their rescue causes.

We have troops that meet in person and troops that meet online. No one should feel left out just because they don't live in a big city.

Atlanta Troop 707 meets every month for events and fundraisers.

Remedy and her mom plan amazing badge events and charity fundraisers all year long. The Atlanta Troop is always ready for a good time for a good cause!

Two breed specific troops are available also; Wigglebutts for Cocker Spaniels and Pinky Troop for Pugs.

Some members of Troop 4 went to sing holiday favorites at a nursing home

While some dog groups are only about the dogs having fun, our people always get in the act!

Join the original PupScout organization, as seen on National Geographic's Spoiled Rotten Pets.

Beth Stern knew that our pups were not only the most spoiled, but that they were the most sincere about giving back to the dog community. Please join us and help us help the less fortunate furries in your area as well.
